Sample Question & Answers

Q1. What is an event you remember well, such as an anniversary or birthday? Explain why using details and examples.

The event that I remember well is my 15th birthday. On that day, all my close friends came to celebrate it. My best friends including James, David, Nina, and Rocko came, and we had a great time together having food and playing games. Another reason I remember well is that I received many expensive gifts. My friends bought me a game DVD, my brother bought me a new electronic dictionary, and my parents got me a new bicycle. My 15th birthday was great. I received the things that I always wanted and my best friends and I had a great time.

I want to go to France for two reasons. First, France is known for art. France has many famous painters' works in the museums and galleries. Monet, Da Vinci, Degas and Picasso are only few of them. Secondly, France has many good food. I especially enjoy French meals and desserts such as chocolates and cakes. They are very delicious. As France has many places to visit and great food to eat, it would be the country I would most like to visit.

Q3. What is the most important holiday in your country? Why do you think it is so important? Include details and examples to support your explanation.

The New Year's Day is the most important holiday in my country. There are two reasons for this. The New Year's Day is the first traditional holiday of the year, and people gather with their family members and relatives. They visit their ancestral tombs, share food, and play traditional games such as Yutnori together. Another reason is that on this day, people make new resolutions. Some vow to quit smoking, when some decide to pass the college entrance exam. As people spend this day with close ones and think seriously about their future, the New Year's Day is the most important holiday in my country.

Q121. Which season – winter, spring, summer, or fall – is your favorite?

A. Sample Answer

My favorite season is winter because of two reasons. First, Christmas is in winter and I always love getting presents from my family. Usually, on Christmas, I get toys from my sister and chocolate from my mother. We always have a great time together on Christmas. Second, I love to play in the snow. When I was younger, I made a snow angel or a snowman every year on the first day it snowed. I still do it today. In winter, I also get to see my little brother throw a snowball at my dad. It's very funny. Since it is a great season to spend with my family, I think winter is my favorite season.

If I could plan the perfect day to spend with my friends, I would go to Paris. Paris is a great city, filled with a lot of opportunities. First, we could go shopping in the Galeries Lafayette. We could buy lots of expensive perfumes, sweaters, scarves, and jeans. We could spend hours getting lost in the wonderful department store. Also, we could eat some of the fanciest food in the world. I've always wanted to eat a baguette near the Eiffel Tower with my friends and if we were in Paris, I would love the opportunity to do so. We could even eat the baguette with some chocolate hazelnut spread. Because we could have a lot of fun, the perfect day with my friends would be in Paris.

A. Sample Answer

The most frightening experience I've ever had was when I went to the dentist's office for the second time. I was six years old and I was so scared, I cried for hours. It was scary for two reasons. First of all, the dentist caused me a lot of pain on my first trip. On my first visit, they put lots of instruments in my mouth, which caused my mouth some distress. I hated the feeling of the latex gloves in my mouth; it just tasted gross. Also, we had to wait a long time in the office, so it made me all the more anxious, especially because the secretary wasn't nice. All in all, my second trip to the dentist wasn't that painful, but I will always remember how terrified I was of my visit.

Q124. Should a country's government tell its citizens how many children they can have?

A. Sample Answer

I think governments should tell their citizens how many children to have. To begin with, there are too many people on the Earth. The Earth now has over seven billion people and we simply do not have enough natural resources to feed, clothe, and raise more people. If we continue to have more and more children, a lot of people will starve to death. In addition, if a government sets up this policy, then we can live more comfortably. We will be able to live in larger homes instead of cramped apartments in the cities. For these reasons, I think that governments, like China, should do almost everything they can to limit the number of children people have.

Q125. Would you rather earn a lot of money working in a job that you don't like or earn less money doing something you enjoy.

A. Sample Answer

I would prefer to work in a job that pays me more money though I don't like it. I have two reasons to support my idea. First, nobody really likes their job. Even though many people say they really enjoy the job, a job means that it's something you have to do out of duty. And I hate it when people tell me to do something. Second, I want to earn a lot of money because I want to own a big, beautiful mansion. If I get my mansion with a swimming pool and all, I would be the happiest person in the world. For these reasons, I would take the job that I don't like, but pays well.

Q126. Should students work while they study?

A. Sample Answer

I don't think students should work while they study. If students work while they study, it will take up a bunch of time. Studying is considered an occupation, and I think that if more people treated school like a regular job with a 40-hour work week, students would learn more and be more productive. Adding work into the mix would just stress students out and make them do badly in school. Also, most jobs for students are really bad, like being a janitor or a store clerk. I don't think those jobs are appealing and most don't make that much money anyway. For these two reasons, I don't think students should work while they study.

Q127. Which do you think is better for the environment: to build fewer factories or to create more wildlife preservation areas?

A. Sample Answer

I believe we should build fewer factories rather than create more wildlife preservation areas. We have a fundamental problem with pollution and it is because we create too many things we don't need. Creating wildlife preservation areas will not solve the problem. If we build fewer factories, we will at least slow the gradual degradation of the ozone layer and our natural world. In addition, factories produce a lot of air pollution, which reaches everywhere on Earth. Smog doesn't know land boundaries, and if we build wildlife preservation areas while building more factories, the animals will eventually die off anyway from a lack of oxygen. To conclude, I argue that we should build fewer factories.

B. Create new sentences using the expressions below.

Q128. Do you agree or disagree with the following statement? It is healthier for children to live in the countryside than in the city.

A. Sample Answer

Parents should not scold their children in public. First off, scolding a child in public is very harmful to children. If a child gets scolded in public, it will damage his or her psyche. It is just too embarrassing for a child to withstand and if parents are too rough with a child, they can even embarrass themselves too. Secondly, a parent should always love his or her child. There is never a reason for a parent to yell or scream at a child, even if the child misbehaves. Instead, a parent should speak calmly and take control of the situation coolly. Children naturally follow their parents anyway, so parents don't have to do much to get their children to behave.

Q129. Should students consult their parents about their majors and careers?

A. Sample Answer

I think students should consult their parents about their majors and careers. To start with, parents are very knowledgeable about life. They have lived a lot longer than us and have more experience. If we as students consult them, we are sure to get expert advice about what to do, and we will definitely go in the right direction. Also, parents are great resources whom are very different. Some people prefer to consult just their friends, but our friends are just way too similar to us. We should get different perspectives about our majors and careers from different people, including our parents. For these reasons, I think students should consult their parents when deciding their majors and careers.

B. Create new sentences using the expressions below.

(1) major in

(2) develop into

(3) get advice from

Q130. In order to get healthy, should people exercise more or sleep more?

A. Sample Answer

People need to sleep more in order to get healthy. Sleeping is important for two major reasons. First, sleeping rids the body of harmful toxins in the brain. When we go to sleep, the body starts to rid itself of poisons all over. If we don't go to sleep, our bodies will never be able to remove these dangerous chemicals. Also, sleeping helps recharge the body. When we go to sleep, we help conserve energy for our busy day. Sometimes, people go to work without having slept for long, but they always feel sluggish and tired and don't feel very good. Therefore, people should sleep more to be healthy.

Q131. If you could give a meaningful gift to a family member, what would it be?

A. Sample Answer

If I could give a meaningful gift to a family member, I would give a camera to my sister. My sister loves photography. All she wants to do is take pictures and her old camera is outdated. She needs a better camera to help improve her skills and even though the camera would be expensive, it would be worth it. Also, we could make a lot of memories. My sister could take pictures when we go on vacation to Paris, London, or Hong Kong. Or, when we have a special occasion like a wedding, she could take special pictures. Because it could help her realize her dream of becoming a photographer, I would give my sister a camera as a meaningful gift.

Q132. Explain your learning style: visual, auditory, kinesthetic, etc.

A. Sample Answer

For me, I find that I learn the most when I see something. When I see something, I can almost always remember it. That's why it really helps me when the teacher uses the board. I often don't take notes, but it's not because I'm not a good student; it's simply because I don't need to. I just have a very good written memory. For example, my teacher wrote very complex math problems on the board and even though I didn't take notes, I got a 100% on my exam. Sometimes, I'll even take notes for myself, read them, and then throw them out. I'm just a great visual learner and that's the way my brain works.

Q133. What do you think are some of the causes and what are some of the solutions to the problem of obesity in today's society?

A. Sample Answer

There are two main causes two obesity today: the widespread availability of fast food and an increased sedentary lifestyle. Fast food is all around us. What with the hundreds of Burger Kings, McDonalds, and Taco Bells just in the area alone, people are consuming too many calories without much nutrition. It is just too cheap not to eat. Increasingly, people are not exercising enough as well. The number of jobs that don't require any physical labor is also reaching an all-time high. Jobs as secretaries are increasing while jobs as farmers are decreasing. To combat both of these problems, I think people should eat less junk food and exercise more.

Q134. Do you think that seeing violence in video games or movies cause people to behave violently?

A. Sample Answer

I don't think seeing violence in video games or movies causes people to become violent themselves. People who behave violently often have emotional problems. Even though these kinds of people are more likely to consume violent media, that does not mean the media itself causes violent behavior. Correlation does not mean causation, after all. And secondly, some people play violent video games like Halo or Call of Duty simply to relieve stress. With all of the stresses of modern society, some teenagers just need to get away and blow off steam. These two reasons are why I don't think people become violent after watching violent movies or playing violent video games.

Q135. Should children be allowed to eat only the foods they want?

A. Sample Answer

I think children should be allowed to only eat food they want to eat. First, children are known for making good food choices. Every little kid I know around me would prefer to eat fruits and vegetables over chocolate and candy. In my experience, children really like to eat spinach, cabbage, and carrots, and they naturally gravitate towards these at the supermarket. Also, kids are not picky; they just have certain foods they don't like, and parents should not force them to eat foods they don't like. Even parents have certain foods they don't like. For example, my mom doesn't like pineapple. I would never force her to eat pineapple, and she shouldn't force anyone else to eat it either.

Q136. Should children be given the freedom to dress anyway they want?

A. Sample Answer

Children should be allowed to dress anyway they want. Children need to feel creative, and one way parents can encourage their children to experiment and do different things is to let them dress themselves. One of my little cousins mixed bright colors like orange, pink, and green for two months, and she looked fantastic. Children also need to feel secure with their fashion choices too. If parents criticize their fashion choices, they will have low self-esteem and then they might feel very sad whenever somebody makes fun of them. I think letting children dress themselves is an important part of a child's development.

B. Create new sentences using the expressions below.

Q137. Would you save your money at a bank or at your home? Why?

A. Sample Answer

I prefer to save money at home rather than in a bank. If we save our money at a bank, we won't have easy access to our money. Saving our money at a bank means that we might have to travel far away in order to withdraw money. However, by keeping our money at home, we can always access our money conveniently, which is much better than a bank far away. In addition, I have a lot of money. I don't think I can trust other people with my money, especially a bank. They might just try to steal from me. Therefore, I think it is better to save money at home rather than in a bank.

Q138. If you could choose your own study hour, how many hours would you study?

A. Sample Answer

I would choose to study two hours a day in addition to school. I have two reasons why. My first reason is that I only really need to study for chemistry and math. I'm really terrible at those subjects, so if I just spend a little bit of time everyday studying those two subjects, I can improve my grade significantly. My second reason is that I'm really busy. I have a part-time job at my local coffee shop and I have numerous extracurricular activities, including a soccer team and a volunteer club. I also have to help out around the house, so I just don't have that much time to waste. For these reasons, if I could choose my own study hours, I would only study for two hours a day.

Q139. Do you think it's important for children to learn how to swim at an early age?

A. Sample Answer

I don't think it's important for children to learn to swim when they're young. First, we don't really need to know how to swim. One of my friends, Molly, does not know how to swim and she never needed to learn. She always lived in the city, where there wasn't a lot of water or swimming pools available. Swimming just never interested her. Second, it's not hard to learn how to swim. One of my friends learned how to swim in college. She took a class and it only took her a couple of tries before she was doing all kinds of moves in the water, like the backstroke. In conclusion, I don't think it's important for children to learn to swim at a young age.

Q140. Should older children learn to cook so they can help prepare the family meals sometimes?

A. Sample Answer

Older children should not learn to cook at all. To start with, there's no need to learn how to cook. Because there are so many restaurants, nobody needs to know how to cook nowadays. You can simply go to a restaurant anytime you are hungry and eat something. You can even order food over the phone or the Internet and have it delivered. Also, even older children might get hurt when cooking. Cooking can be dangerous; we can get burned from the stove or even cut ourselves with a knife. Then, we might end up in the hospital, and that would not be fun. Therefore, I don't think that older children should learn how to cook.

B. Create new sentences using the expressions below.

(1) get hurt

(2) get burned

(3) end up ... ing

(4) cook the books (=flaify books=cook accounts)

C. Find an error in each sentence.

(2) I don't like too spicy food. It's pungent taste burns my tongue.

(3) The ceremony was participating with many dignitaries.

(4) He came up on a new recipe. His food sells like hot cakes.

Q141. Which skill do you think is more important in foreign language learning?

A. Sample Answer

The most important skill in foreign language learning is reading. Reading allows us to do many things on our own, so it can help us to be independent. For example, when I am at a restaurant, I can't have the waiter read off a menu to me; that would be rude. We just have to know how to read to do these kinds of simple tasks. However, we can always ask someone to write something down like directions to the zoo or instructions on how to do something. In addition, reading is usually easier. Sometimes it's hard to speak because the sounds are difficult to make. However, we shouldn't have any trouble writing things down. Because of these two reasons, I think reading is the most important skill when learning a foreign language.

A. Sample Answer

My favorite ethnic food is Thai food because of two reasons. To start off, my favorite dish is Thai curry. It is always really delicious and I love the many different flavors involved in making it like green onions, ginger, and coconut milk. It is creamy, yet spicy, and that's something I like. Plus, there are so many ways to make Thai curry; I never get bored of it. Also, Thai food is almost always easy to a vegetarian. I'm not a vegetarian, but I am trying not to eat meat as often as I once did. It's healthier that way, and Thai food can really help me to stay healthy. Q143. Laughter and joy are essential aspects for a healthy life. Why or why not?

A. Sample Answer

I don't think laughter and joy are essential for a healthy life. First off, laughing can sometimes be inappropriate. For example, I went to a funeral with one of my friends. His mom had died just two months before and the funeral was for his dead sister. He started laughing uncontrollably, and that was not very good. People thought he was crazy. In addition, some people live very successful lives while having no sense of humor. Think about most college professors. They are very dedicated to their work, always eat healthy, and yet have no sense of humor. Therefore, I think that laughter and joy are not necessarily needed for life, though they do make things more interesting.

When I cry, I feel a huge burden being lifted and I no longer have to keep my emotions bottled up. Second, I make sure to talk to my mom. My mom always gives me the best hugs and she always makes me feel better. Sometimes, she will make me hot chocolate, and other times, she will give me the best advice in the world. Q145. Do you think it's a good idea to loan money to friends?

A. Sample Answer

I don't think it's a good idea to give loan to friends. To begin, most friends you loan money to are poor. If they were rich, they would never ask for money in the first place. Therefore, it's especially risky to loan money to friends because they might not be serious enough to pay you back. I also don't think that friends would spend the money wisely. Most teenagers nowadays spend too much money on clothes, food, and other things they don't need. They just rack up a lot of debt that their parents must pay off. For these reasons, I don't think that it' a good idea to loan money to friends.

Q146. Is it important to have expensive but beautiful things such as fancy cars and designer label clothes?

A. Sample Answer

It's not important to have expensive and beautiful things for two important reasons. First off, most expensive things are really not worth the price. I think that we have to be humble; for me, what's most important about a car is whether or not it functions correctly, not whether it looks beautiful or is expensive. Therefore, paying lots of money for a car is useless because cheaper cars exist. Also, more people will hate you if you have expensive things. Having designer label clothes makes you hated by a lot of people. I know once I wore a Prada scarf and people came up to me and called me a snob. Therefore, I don't think that we even should have these sorts of pricy items.

Since soccer is a team sport, I can play with my friends and learn good sportsmanship. Soccer is a great way for me to meet people, and it's how I met people when I first came to America. Secondly, playing soccer involves a good mixture of cardio. There is a lot of running, jumping, kicking, and other moves. Q148. When you choose a friend, which quality is more important in that person: honesty or physical appearance?

A. Sample Answer

Physical appearance is more important when choosing a friend. If we are not friends with pretty people, we will not be popular and therefore, we might jeopardize potential new friendships. For example, I was once friends with an ugly person, and then nobody wanted to be friends with me. Being popular is just too important. Also, if we have beautiful friends, then we can get free stuff. People give out free food, drinks, and toys to other people they think are pretty. If we have only beautiful friends, then we might get some of that free stuff too. For these reasons, I prefer to choose my friends based on how they look.

Q149. If there was a fire or some other type of disaster in your house, what would you take with you? Why?

A. Sample Answer

If there were a disaster in my house, I would absolutely take my phone with me. If I take my phone with me, then I won't have to pay a lot of money to replace it when I make it out of my burning house. A phone costs a lot of money to replace and if I don't take it with me, then I might have to settle for a phone of lesser quality. Also, if I take my phone, it can help me get into contact with my family members. My family members are the most important people in my life and I want to make sure that they're all right. If they take their phones with them, then we will know they're OK and help comfort one another. For these reasons, I would take my phone with me if there were a disaster.

Every Sunday night, we even get together to make popcorn and watch Mad Men. We always have a fun time. In addition, Christina is someone I can really depend on. Q151. If you could be famous for something, what would you want to be famous for?

A. Sample Answer

If I could be famous for anything, I would want to be famous for the discovery of life on other planets. The first reason for this is that it would allow me to gain recognition from the scientific community. If I discovered life on other planets, I could act as a fatherly figure to that life. I would have a special bond with the extraterrestrials and could ensure that they stay on my side. Being the father of a whole new species of people would make me extremely powerful. Maybe I could even colonize their planet and establish myself as the ruler. Then, I would not only be famous for discovering new life, but establishing the first government on a planet other than Earth as well. Q152. Do you think teenagers should be allowed to drive?

A. Sample Answer

I do think that teenagers should be allowed to drive for two very important reasons. First off, teenagers need to be able to drive to do important errands for their family. When I was a teenager, I always did things for my mom and dad. I drove my little siblings around after school to things like doctors' appointments and play dates. I also frequently drove to the grocery store because my mom would forget something important like butter or cheese for dinner. In general, teenagers should be able to drive so they can do things for other people. Additionally, teenagers need to be able to drive in order to get practice. Some of my friends didn't drive when they were teens. They are having a very difficult time now learning because they didn't learn when they were younger. Had their parents encouraged them to drive when they were, say, 16 or 17, they would have saved a lot of time and energy as adults. Accordingly, I think that teenagers should be allowed to drive.

If I could meet one world leader, it would have to be Barack Obama. The first reason is that Barack Obama is basically the most powerful man in the world. Barack Obama is the President of the United States, which is one of the largest and most economically powerful nations on the globe. Meeting President Obama would open many doors for me, and allow me to get in contact with many other people, like important journalists and other celebrities. In addition, President Obama is one of the most inspiring people in American politics. He was raised by his grandparents in a middle class home and despite many obstacles, he became editor of the Harvard Law Review, which is one of the most prestigious law journals in the United States. Q154. Which do you think is better, going to college right after high school or after taking a few years off?

A. Sample Answer

I think it is better to go to college after taking a few years off for two reasons. First off, high school is very stressful. There are a lot of quizzes, tests, and homework that children have to do. The high school exit exams in particular are very nerve-wracking; you have to study for hours and hours on end, memorizing a lot of material. Kids just need a little break from studying in order to stay mentally stable. In addition, taking a few years off allows students to explore many different opportunities. One of my best friends did an internship in New York during his gap year. He was able to get a lot of experience and a lot of perspective on the world before going to college. One of my other friends did his military service before going to college; he was very happy about this because he made so many friends. Because students need a break to explore many of life's possibilities, I think students should take a few years off before starting college.

Q155. Which do you think is better - to live on campus or to rent an apartment off campus?

A. Sample Answer

For me, I would always choose to rent an apartment off campus rather than live on campus. The first reason why is very simple: it is cheaper. Living on campus is more expensive because you are usually located in a closer area to campus. This is expensive, especially because the college adds extra expenses you don't need like cable television. It's simply too much to afford, and by living on campus, we can save more money to have fun. Secondly, renting an apartment off campus means fewer rules. When we live on campus, we have to obey a curfew. If we break curfew and stay out past 11 o'clock, we will get reprimanded by the headmaster. However, by renting an apartment off campus, we can stay out as much as we want and meet lots of interesting characters on the street well past midnight. Because it is cheaper and less restrictive, I prefer to live in an apartment off campus.
